DETAILED ACTION

The following is a response to the amendment received on April 23, 2007 which has been entered.

Response to Amendment

Claims 5 and 7-9 are pending in the application. Claims 1-4 and 6 are cancelled.

-The objection to the specification has been withdrawn due to applicant correcting the typographical error.

-The 112 2nd rejection of claim 6 has been withdrawn due to the examiner's understanding of the term "adapted to" being used as a connection phrase and not a function phrase.

-The 102(b) and 103(a) rejection of claims 5, 8 and 9 has been withdrawn due to applicant amending claim 5 with limitations not disclosed by the prior art of record used in the rejection.

Allowable Subject Matter

Claims 5 and 7-9 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-a bearing arrangement for a gear wheel having a first recess provided in an inner wall of a transmission housing for seating a bearing element and an inner contour of the recess adapted to an at least partially circular-arc shaped outer contour of the bearing element and in combination with each and every remaining limitation of claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
